Since the 8 hour law became effective, and since the wireless companies are establishing stations throughout the country there is a great shortage of telegraphers. Positions pay beginners from \$70 to \$90 per month, with good chance of advancement. The National Telegraph Institute operates six official institutes in America, under supervision of R. Easy to add, but do YOU know what it means? JUSI THIS: That before YOU as a depositor in this Bank could lose one cent this Bank would have to lose \$290,000.

How do we make that out? Why this way:

\$ 130,000 Capital \$ 130,000 Surplus **Uudivided Profits** \$ 30,000

which is OUR money in the business. Isn't that protection worth considering?
